AMERICANS

WANT TO WORK.
SUPPORT S. 3706

We're caught in a vicious cycle: Businesses aren't hiring because their chief concern is poor sales, and people aren't buying because their chief concern is their job. S. 3706 will break the cycle in two ways: by extending the HIRE Act, which is already credited with adding 5.6 million jobs, and by adding a fifth tier of unemployment benefits, which add \$1.61 to the GDP for every dollar spent.
